User's answer:

"I explain a complex concept which is in artificial intelligent to my friend who didn't understand it I explain him in a proper way in step by step manner so, that he will easily understand and, I had make sure that he understood with."

Ideal answer:

"When I had to explain artificial intelligence to my colleague, who was new to the field, I realized she didn't understand the concept. I decided to break it down into smaller, manageable chunks, starting with the basics. I used simple analogies and examples to illustrate key concepts, and provided step-by-step guidance to help her grasp the idea. I also checked her understanding along the way, asking questions to ensure she had a solid grasp of the material. By the end of our conversation, she had a good understanding of the complex concept, and I was confident that she would be able to apply it in her work."
